## REPORT OF THE AUDITOR OF STATE.

STATE OF IOWA,  
OFFICE OF THE AUDITOR OF STATE,  
DES MOINES, September 15, 1891.

*To his Excellency, HORACE BOIES, Governor of the State of Iowa:*

SIR—In compliance with subdivision 11, section 66 of the Code, I present herewith my report of the financial affairs of the State for the biennial fiscal period, beginning July 1, 1889, and ending June 30, 1891.

### GENERAL REVENUE.

During the period ended June 30, 1891, there was \$3,540,064.85 paid into the treasury on account of general revenue, making a total after adding the balance on hand at the beginning of the period, July 1, 1889, viz.: \$5,181.67 of \$3,545,246.52, available for current expenses. The disbursements from this fund for the same period in the payment of auditor's warrants and interest thereon, amounted to \$3,057,187.57, leaving a balance in the treasury June 30, 1891, of \$488,058.95. To this amount should be added the funds in the hands of the county treasurers belonging to the State on the 30th day of June, 1891, as reported by them, amounting to \$34,890.64 (see statement No. 27) and we have an aggregate of \$522,949.59 general revenue with which to begin the next fiscal period.

The taxes levied in 1890 and previous years, yet due and uncollected, amount to \$747,934.03, (see statement No. 28) but a large portion of this sum is for delinquent taxes of past years, and is not available. Of this amount \$742,395.04 is due on State tax; \$25,199.76 as insane expenses; \$438.33 on account of clothing for blind; \$1,058.60 for clothing for deaf and dumb; \$4,081.57 for clothing for feeble-minded, and \$5,498.10 for support of indigent children at the Orphans' Home. These amounts will all be paid,

except, perhaps, 60 per cent of the amount due from State tax levies for previous years, leaving \$333,234.38, which, added to the amount in the hands of the State and county treasurers belonging to the State shown above, viz.: \$522,949.59, makes a grand total of \$856,183.97, which might properly be called the cash assets of the State of Iowa at the close of this fiscal period, were it not for the fact that the same amount will probably be uncollected at the end of the next fiscal period, making it unwise to consider the item of \$333,234.38 as available for appropriation, leaving the available cash assets \$522,949.59.

By reference to statement No. 9, you will see that I have estimated the probable receipts during the next two years at \$3,064,240.00, and under the present condition of things I think the full amount will be realized, but do not believe it would be prudent to anticipate any more, which, added to the available cash assets, \$522,949.59, at the beginning of the next fiscal period, would make \$3,587,189.59, the available resources for the period ending June 30, 1893.

Statement No. 10 is my estimate of expenditures for the next two years, based upon the present general laws, and the amount expended during the last fiscal period, and amounts to \$2,628,420. This does not include any special or extraordinary appropriations which have been made in the past and which may be made again. By subtracting this sum from the probable available resources for the period ending June 30, 1893, we have \$958,769.59. From this must be subtracted \$404,807.34, the amount of the available unexpended extraordinary appropriations previously made, and we find the probable available amount for extraordinary appropriations for the Twenty-fourth General Assembly to be \$553,962.25, and within which they should be confined. The conservatism of the Twenty-first, Twenty-second and Twenty-third General Assemblies in the matter of appropriations, resulted in discharging a floating indebtedness of \$765,524.73, which existed at the close of the fiscal period on June 30, 1885, so that at the beginning of this period we are not only free from debt but we have a balance of \$522,949.59 ready cash in the treasury, a showing of which any State might well feel proud, and not only a condition which should ever mark the future history of our State, but one which *will* exist if the same caution be used by future legislatures.

## REVENUE ACCOUNTS.

As suggested by me before, I think the interests of the State would be greatly enhanced by changing the law so as to make the counties responsible for the entire amount of the State tax levied and payable into the State treasury semi-yearly regardless of collections by them. In my opinion this would incite greater diligence in the collection of delinquent taxes and make the resources of the State absolute, thus eliminating all uncertainty as to available means. It would also greatly lessen the work in this office and in the office of the State Treasurer, as well as for the county treasurers and auditors. I do not believe that it would in any degree be a loss to the counties as the interest on delinquent taxes, together with any additional assessments which might be made, would reimburse them for all loss on account of unavailable taxes. By this means the State would be secure in its revenue, the counties relieved of a great deal of work, and not damaged to any extent.

## ASSESSMENT OF REAL ESTATE AND PERSONAL PROPERTY.

The assessment of real estate and personal property is the vexed question which has been a source of great perplexity to every officer who has had the burden of looking after the revenue of the state laid upon him, and the many efforts to equalize the same have been futile. Our laws require that all property shall be assessed at its actual cash value, but while thus explicit its violation has been notorious and almost universal, however in a varying degree, and no two counties bear exactly the same proportion of the state tax. I am of the opinion that the average assessment of real estate and personal property in the state does not exceed 25 per cent of its actual cash value, and the duty of the State Board of Equalization, viz., the adjustment of the inequalities of assessment, is made practically an impossibility, for the reason that the percentage assessed differs as frequently as there are counties in the state.

In contemplating this subject as I have for the past five years, I have been able to think of but one remedy that seemed practical to me, and that is the lowering of the maximum rate of taxation to such a degree as will force the raising of values to their proper position in order to be able to realize the necessary amount of revenue for county purposes. Then might we hope for an equitable burden of taxation throughout the state, and then would our fair Iowa be placed in the justly proud position of being rated for all

she is worth, with a low rate of taxation, and the bugabear which undoubtedly has kept many a thrifty man from settling within our borders, viz, a high rate of taxation be forever buried out of sight and no one hurt by it.

#### RETURNS OF ASSESSORS TO COUNTY AND STATE AUDITOR.

Section 833 of the Code requires the county auditors to transmit their abstracts of assessments to the Auditor of State on or before the third Monday in June in each year, etc., and section 836 requires the State Board of Equalization to finish their equalization on or before the first Monday in August. Both of these laws are mandatory and in my opinion do not admit of any special construction as to time, to suit special cases of delinquency, yet it is a notorious fact that some counties, notably Polk and Woodbury, are never on time, and the State Board for a number of years has been compelled to complete its work without their reports and has had to estimate these two counties. The county auditors place the blame for this delinquency upon the city board of equalization of Des Moines and Sioux City, while they in turn place it upon the assessors for failing to return their books to them on the first Monday in April, as required by sections 825 and 829, notwithstanding the penalty prescribed by section 827 of the Code for such failure. The annoyance and anxiety caused by such dereliction of duty to the State Auditor and Board of Equalization, not to say anything about the injustice to the ninety-seven other counties in the State which have been prompt, by preventing them from working on their tax lists, because of the impossibility of the State Board to certify the equalization to them, is so great that it should not be allowed to occur again by the enactment of some law by the Twenty-fourth General Assembly, which will compel the assessors to complete their work within the specified time. I would suggest that section 827 of the Code might be amended by adding after the word "bondsmen" in the last line the following: "nor shall any assessor receive any compensation whatsoever, either directly or indirectly, for any service rendered or work done by him after the first Monday in April, and it shall be unlawful for any board of supervisors or city council to allow any bill for compensation for services in assessing property, rendered after the first Monday in April."

I believe such a law would have the desired effect.

The abstract of assessment of Polk county for 1891 was not filed until August 21st, nearly three weeks after the adjournment of the

State Board, and the one from Woodbury was not filed until September 10th, nearly six weeks after the Board adjourned.

#### PERSONAL PROPERTY.

I have secured and prepared an itemized statement of the assessment of personal property for 1891, (see page 80) which I think is proof that a great deal of personal property escapes taxation. I will, however, allow you to draw your own conclusions by a personal examination of statement No. 23.

I have endeavored in the preparation of the tables or statements contained in this report to give the most useful information possible concerning the fiscal affairs of the State at the least possible expense. Statement No. 3 is in detail the bills allowed by the executive council under section 120 of the Code, embracing all supplies used and current expenses, (except the stationery contracts for which \$22,847.37 was expended) besides \$2,400 paid the clerk of the executive council, \$285 paid to the clerks in the office of the Secretary of State on account of a deficit in the appropriation made by the Twenty-third General Assembly, \$1,710 paid to messengers in the Governor's office, and \$1,738 paid to office janitors on account of a deficit in the appropriation made by the last legislature for that purpose, amounting in all to \$29,620.91 as against \$44,050.36 during the period ended June 30, 1889, a saving of considerable importance.

I have prepared for this report statements No. 29 to No. 32 showing the amount of fees earned by the various officers by months and the aggregate for the two years. By this it will be seen that this office earned \$59,930.50 as against \$53,325.75 during the former period; the clerk's office \$5,704.49 as against \$7,239.41 during the two years before; the secretary's office \$12,266.90 as against \$12,691 for the period ended June 30, 1889; and \$856.50 by the office of superintendent of public instruction as against \$766 during the period before this. The total expenses of all the offices in the capitol, including office janitors, during the last period amounted to \$69,136.38, or only \$9,205.88 more than the fees earned by the auditor's office alone, or to speak more particularly, the fees paid by the insurance companies doing business in Iowa.

#### BANKS.

The growth of the banks, Savings and State (so called), coming under the supervision of this office, has been most remarkable and shows a very prosperous condition of our people. The number

of savings banks has increased from fifty to eighty-three, and the deposits in the same from \$13,125,058.88 to \$20,821,495.07, a gain of \$7,696,436.19, while the number of State banks has increased during the same time from eighty to one hundred and twenty-two, and the deposits in the same from \$7,271,515.72 to \$12,960,211.60, a gain of \$5,688,695.88, a total gain of seventy-five banks and \$13,385,132.07 in deposits, making the total deposits in the banks, under the supervision of the Auditor of State, \$33,781,706.67. When it is taken into consideration that the greater portion of these deposits are the savings of our people, mechanics, laboring men, and farmers, it is indeed a very encouraging condition of affairs. The total deposits in 1881 were \$9,667,215.80, and at the same time in 1891, as before stated, \$33,781,706.67, a gain in two years of \$24,114,490.87. I find the present laws regulating these financial institutions generally satisfactory, except, perhaps, section 1571 of the Code, which requires bank statements to be published in some daily newspaper, which in some instances does not serve the purpose for which the law was intended for the reason that the most accessible daily paper does not circulate among the patrons of the bank. This should be so amended as to allow the publication of these statements in some weekly newspaper of general circulation in the community in which the bank is located.

I desire to renew my recommendation of 1887, that the law requiring the insurance report to be made to the General Assembly, viz., section 1158, Code, be changed so as to have this report made to the Governor of the State, the same as other reports are required to be made. As the General Assembly does not convene in the odd numbered years, the reports made then become supplanted by the reports of the next year and before the next session of the law making body. The law does not specifically state that this report should be addressed to the General Assembly, yet that construction has always been placed upon the law and that custom has prevailed.

Chapter 185, section 5, laws of 1884, should also be amended so as to have the report of the Inspector of Oils made to the Governor instead of the Auditor.

It is with a sense of grateful reluctance that I bring these general remarks of my last biennial report to a close. During the five years of my official life as Auditor of State it has been my good fortune to be associated with gentlemen of the highest type of honor and competency, especially so as a member of the Executive Council. Our duties have been onerous and exacting, and at various times we have not been able to see all things alike, yet I am

glad to say that through all these years the most friendly relations have existed and my own short comings have been patiently borne by you and my other co-officers, while I have conscientiously tried to do my duty under the law, as I have been able to see it, and I take this occasion to publicly express my appreciation of the uniform kindness shown me. I also desire to testify to the efficiency and faithfulness of my own office force, with whom I have been more closely related than with any one else. It is but justice to say that no more friendly relations ever existed in any department of public service than has marked my office associations, and at no time did they fail to render most cheerfully any service within their power for the benefit of the administration of my office. To the county officials of Iowa, as well as to the bank and insurance officers and agents doing business in Iowa, I also return thanks for their hearty co-operation in all our business transactions.

Very respectfully,

J. A. LYONS,  
*Auditor of State.*

Total.....	\$ 245,435.19

## SUMMARY.

Showing the total amount of the permanent school fund, and how it was invested June 30, 1891, as shown by the books in this office, as follows:

Amount held by the several counties.....	\$4,229,563.22
Amount in State bonds drawing 8 per cent interest.....	245,435.19
Amount of contracts on hand for real estate sold.....	600.00
Amount in State treasury.....	0.00
Total .....	\$4,475,598.41

The above may be considered the entire available interest-bearing school fund of the State. In addition to this there are, as described in Statement XII, lots and lands bought in by the State for the use of the school fund on foreclosure of mortgages belonging to the Eads' loans, and not yet resold, estimated in previous reports to be worth \$3,735.00; this is not available, and is not included in the foregoing summary. Neither are the notes and mortgages shown on preceding page included, because they are practically worthless.

NOTE.—The figures in this statement relating to the assessment and equalization of real property, are copied from the assessment and equalization of 1890, there being no assessment of the same in even numbered years.  
 Telegraph and Telephone Companies are assessed by the Executive Council, and their taxes are all paid into the State treasury direct. The assessment not being returned by the county auditors accounts for its not showing in this statement.  
 The Telegraph Companies' assessment for 1890, is \$501,574, and the Telephone Companies' assessment for 1890, is \$162,000, making the total assessment of the State \$523,862,888.

Notes—The corporation taxes shown in the counties of Dubuque, Lee, Linn and Scott, include the taxes levied by the cities of Dubuque, Keokuk, Cedar Rapids and Davenport, which were reported by the city officials to this office; they being organized under special charters, collect their taxes independently of the county treasurer, and do not certify them to the county auditor.

Add to the above the taxes of the telegraph companies, \$14,904.58, and the taxes of the telephone companies, \$4,860.00, not reported by the county auditors, and we have a grand total of \$15,563,083.32.

Norg.—The corporation taxes shown in the counties of Dubuque, Lee, Linn and Scott, include the taxes levied by the cities of Dubuque, Keokuk, Cedar Rapids and Davenport, which were reported by the city officials to this office; they being organized under special charters, collect their taxes independently of the county treasurer, and do not certify them to the county auditor.

Add to the above the taxes of the telegraph companies, \$15,056.23, and the taxes of the telephone companies, \$4,800.00, not reported by the county auditors, and we have a grand total of \$15,585,800.38.
